**NVTC features eView Technologies' as one of its companies at the
NBC4 Digital Edge Expo 2005**

eView Technologies' suite of video surveillance security products will be showcased

WASHINGTON, DC (August 26, 2005)... eView Technologies, a diversified Security and Automation Management organization providing intelligent video surveillance technologies, today announced that Northern Virginia Technology Council (NVTC) has selected eView Technologies to feature as one of its companies at the NBC4 Digital Edge Expo 2005 at Washington DC convention Center. eView Technologies' suite of video surveillance security products will be showcased including eView Manager, eView Security, eView Enterprise and e3 Frameworks.

"We are honored to be selected by NVTC to represent Washington DC's finest entrepreneurial community and companies," said Kevin Shahbazi, eView Technologies' President and CEO. "eView Technologies' commitment to develop and deliver intelligent video surveillance technology has been the foundation of our growth, and we are delighted to provide consumers, commercial enterprise and government agencies intelligent tools to achieve new levels of security and productivity."

eView Technologies offers innovative security and productivity products for clients who desire to improve their security and IT infrastructure, to enhance their customers' experience and, in turn, dramatically improve their own bottom line. The eView Manager product line from eView Technologies delivers an entirely new level of security and process management that introduces science into the digital video surveillance security technology. eView Technologies' product suite protects against internal fraud and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is also designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site, www.eViewTechnologies.com.

About eView Technologies

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for

innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
