## **Trust Digital Co-Founder Starts New Security Company**

*Kevin Shahbazi Starts eView Technologies, a Virginia Company that designs Intelligent Video Surveillance Security Technologies*

WASHINGTON, DC (July 12, 2005)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today announced that Kevin Shahbazi, a Seasoned Executive has founded the company. The announcement comes as eView Technologies is making increasingly public moves to carve a legitimate place for itself in the mainstream digital video surveillance security industry.

"As an entrepreneur, I couldn't be happier to start eView Technologies," said Kevin Shahbazi, eView Technologies' President, CEO and Founder. "The company is on a strong footing with a good foundation both in hardware, and software fronts. We have an ideal team to grow the company."

Over the course of two decades in the industry, Shahbazi has amassed hands-on experience in virtually every aspect of the business, including engineering, product design, development, marketing and sales. Shahbazi is expected to be commending eView Technologies' strategic growth, sales and marketing. Shahbazi's mission at eView Technologies is to advance the company's core strength in video surveillance and security management to consolidate its position in enterprise management. He recognizes that eView Technologies possesses the deep experience and product portfolio necessary to help customers manage and secure enterprises as a single entity — across platforms, systems, and camera stacks.

"An enormous opportunity is the benefits of IT integration and seamless enterprise management to an ever widening array of customers. eView Technologies is focused into convergence of IT and physical security," said Kevin Shahbazi, eView Technologies' President and CEO. "As an Industry, we embrace video surveillance security technology. It is important to remember that, like quality, it is a journey that requires continuous improvement over time. We are still in the early stages of our journey.

As we progress, we will not only reap the rewards of productivity growth, customer satisfaction and improved competitiveness, but also gain the larger reward of enterprise security and productivity.”

Before joining eView Technologies, Shahbazi was Chairman and CEO of Trust Digital, which he co-founded in 2001. Trust Digital is backed by Venture Capital, and is a respected leader in "Mobile Enterprise Security and Management" in which it changed the way mobile devices moved into the enterprise. On the subject of Mobile Security, Shahbazi was a frequent speaker at key industry events worldwide, and as an industry expert Shahbazi brought a new vision and breath to Centralized Managed Security and mobile device encryption market. Previously, Shahbazi was the Chief Marketing Officer (CMO) at Applied Technologies and President of Tech Design.

eView Technologies offers innovative security and productivity products for clients who desire to improve their security and IT infrastructure, to enhance their customers’ experience, and in turn, dramatically improve their own bottom line. The eView Manager product line from eView Technologies, delivers an entirely new level of security and process management that introduces science into the digital video surveillance security technology. eView Technologies products suite protects against internal fraud and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is also designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site (<http://www.eViewTechnologies.com>).

### **About eView Technologies**

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies’ founder and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies’ security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
