eView Technologies' CEO To Speak At The Hospitality Conference

CEO Kevin Shahbazi Will Speak About Video Surveillance and Benefits on Security and Productivity

WASHINGTON, DC (September 19, 2005)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today announced that eView Technologies' President and CEO, Kevin Shahbazi, will be a featured speaker at The Hospitality's Conference, which opens next week.

During the session, Shahbazi will review the current video surveillance market landscape, the impact eView Technologies is having on businesses, including enterprise class business intelligence, enterprise security and productivity. Shahbazi will draw from his experience in the fields of security and wireless to show the vital roles that video surveillance and business intelligence play in enterprise security and productivity.

"This convergence of video surveillance security and wireless technologies provides a tremendous opportunity for all involved," said Kevin Shahbazi, eView Technologies' President and CEO. "Making surveillance images ubiquitous requires the work of all industry participants, and eView Technologies is calling on the industry's leaders to band together for the benefit of the consumer and the market as a whole."

eView Technologies offers innovative security and productivity products for clients who desire to improve their security and IT infrastructure, to enhance their customers' experience, and in turn, dramatically improve their own bottom line. The eView Manager product line from eView Technologies, delivers an entirely new level of security and process management that introduces science into the digital video surveillance security technology. eView Technologies products suite protects against internal fraud

and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is also designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site (<http://www.eViewTechnologies.com>).

About eView Technologies

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of security products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety of partners.
