eView Technologies' Client Cutting Inventory Shrinkage With eView Manager Surveillance security Software

eView Manager helped reduce shrinkage and prevent additional inventory theft

WASHINGTON, DC (November 27, 2006)...eView Technologies, a Video Surveillance Security and Automation Management company providing intelligent video surveillance technologies, today announced that their client outfitted with eView Manager video surveillance security application was able to identify and stop a source of on-going inventory shrinkage losses and theft. eView Technologies security products suite is about turning reactive security approaches into proactive measures which helps to reduce shrinkage further and provide business intelligence for optimal operation efficiency. eView Technologies' client is using eView Manager as a backbone for a corporate-wide inventory information system that analyzes data to uncover and predict trends so as to make quicker, more strategic decisions.

eView Technologies' client is impressed by the productivity gains, improved accuracy, and shrinkage reduction benefits that eView Technologies' security application, eView Manager delivered .

"Organizations face a common challenge of cutting inventory and shrinkage losses across all departments," said Kevin Shahbazi, eView Technologies' President and CEO. "eView Technologies helps to provide the vital intelligence that enables businesses to reduce shrinkage further. Additionally, our advanced security software suite provides additional data about how and why shrinkage is occurring at a customer site".

eView Technologies recently signed a contract with one of the oldest businesses in the state of Maryland-- nearly 120 years old - who has taken an ultra-modern approach to security. Company to provide complete CCTV video surveillance security products to ensure building and perimeter security aimed at improving security personnel functionality and response time, increasing customer service and preventing unwanted incidents across the campus. eView Technologies outfitted the company's campus with a CCTV perimeter security system that automatically identifies objects, detects motion and reports anomalies to an email address, pager, cell phone and/or PDA device with wireless communications capabilities.

eView Technologies' suite protects against internal fraud and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site, www.eviewtechnologies.com.

About eView Technologies

Confidently helping organizations to protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite.
