For the 2nd year in a row, eView Technologies' CCTV Security Solution Wins NVTC 2007 Hot Ticket Awards Nomination

Company's Innovation is Recognized on CCTV Security System Enabling Enterprise Video Surveillance via Microsoft IE

WASHINGTON, DC (June 19, 2007)...eView Technologies, a Video Surveillance Security and Automation Management company providing intelligent video surveillance technologies, today announced a major nomination and recognition from the largest technology council in the U.S.A. Now in its sixth year, the Hot Ticket Awards celebrates the efforts of entrepreneurial companies and individuals of the technology community who have exhibited "something special" - great vision, the ability to implement and deliver an innovative management approach and star-quality charisma.

"For the 2nd year in a row, it is quite an honor to have won NVTC Hot Ticket Awards nomination. Accentuating the collaboration between IT and business management, NVTC's Hot Ticket Awards nomination is bestowed upon a select group of organizations that leverage IT to achieve business results," said Kevin Shahbazi, eView Technologies' President and CEO. "For the 2nd year in a row, our team's ability to look at video surveillance security in creative ways and offer practical solutions paved the way to create modular and scalable enterprise security solution, with convenient implementation and ease of use."

eView Manager is compatible with a host of camera stacks, and security formats and leverages the benefits of other eView Technologies' products to give users a richer experience than other tools provide. During 2006, eView Technologies bolstered its industry position with 40 new customers, successful, implementations and integrations of intelligent video surveillance security, and demonstrates market traction for its eView Manager version 3.0. To better address the needs of today's global video surveillance security industry, the eView Manager 3.0 is evolving into a more intimate event focused, on targeted, personalized security events software suite with various modules to form a comprehensive security platform.

"NVTC's Hot Ticket Awards nomination is a terrific honor and we are thrilled to have been selected for this recognition," said Kevin Shahbazi, eView Technologies' President and CEO. "eView Technologies continues to invest in technology and individuals who have helped make these consistent recognitions possible. We are very focused upon the communities we serve, and improve the quality of our lives in various markets."

The Northern Virginia Technology Council (NVTC) is the membership and trade association for the technology community in Northern Virginia and is the largest technology council in the nation. NVTC has more than 1100 member companies representing about 160,000 employees. Its membership includes companies from all sectors of the technology industry.

eView Technologies product suites have a combination of hardware, software, systems, and networking technologies with the primary purpose of performing multiple security and productivity functions. eView Technologies offers one unified solution to monitor the entire business, no matter how many diverse remote operating centers the organization may contain. eView Manager Version 2.5, the "brains" behind the security system, automatically identifies objects, detects motion and reports anomalies to a desired or predefined equipment, email address, pager, cell phone and/or PDA device with wireless communications capabilities. eView Technologies' suite protects against internal fraud and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site, www.eviewtechnologies.com.

About eView Technologies

Confidently helping organizations to protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and promotes its solutions worldwide directly and through a wide variety of partners.
