eView Technologies Announces New Mobile DVR Product

eView Technologies' Appliance Based Mobile DVR Extends Safety and Surveillance Security Capabilities to Mobile Environments

WASHINGTON, DC (September 20, 2007)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today announced introduction of new appliance based mobile DVR with a solid state digital recording (MDVR). eView Technologies' MDVR appliance provides high quality mobile digital video recording (MDVR) with a convenient and removable USB access card for easy data retrieval. Tightly designed and simple to install, eView Technologies' MDVR appliance is the ideal choice for those wanting to take advantage of the newer digital technology at an affordable price.

"eView Technologies' MDVR appliance supports integration into existing Ethernet infrastructure, helping mobile customers as well as IT managers to seamlessly grow their video surveillance network with economical investments," said Ariella Friedman, eView Technologies' spokesperson.

eView Technologies offers innovative video Surveillance security and productivity products for clients who desire to improve their security and IT infrastructure, to enhance their own/customers' experience, and in turn, dramatically improve their own bottom line. The eView Manager product line from eView Technologies, delivers an entirely new level of security and process management that introduces science into the digital video surveillance security technology.

About eView Technologies

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
