## **eView Manager 3.0 Detects Theft and Stops Products Shrinkage**

*Theft and Shrinkage Due to Internal and External Security Breaches were Prevented by eView Technologies' CCTV Security Suite*

WASHINGTON, DC (February 18, 2008)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today announced an attempted commercial business invasion robbery was thwarted successfully by eView Technologies' suite of security products. Inventory shrinkage, a combination of employee theft, shoplifting, vendor fraud and administrative error, isn't just directed at retailers. Retail theft impacts everyone. Ultimately it's consumers that are hurt the most in the form of higher prices.

"While the U.S Chamber of Commerce estimates that theft by employees costs American companies \$20 billion to \$40 billion a year, 75% of employee-related crimes go unnoticed," said Ariella Friedman, eView Technologies' spokesperson. "With a few simple precautions, eView Technologies lowered the risk of becoming a victim and enabled authorities to confiscate stolen goods and valuables, reducing the risk to the property owners, and facilitated in apprehension."

eView Technologies products suite protects against internal fraud and theft, sabotage, malicious acts and legal exposure. It also helps an organization to enjoy the same protection outside their physical boundaries. eView Manager is also designed to work with camera stacks from a vast array of manufacturers. Specific features and functions can be studied in detail at the eView Technologies web site

### **About eView Technologies**

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
