eView Technologies New IR Camera Technology Embedded with Advanced Lightings Goes on Sale

eView Technologies' eIR-4680 Digital camera employs Advanced Light Rays, Infrared-Cut Filter and Light Perception Technology

WASHINGTON, DC (May 6, 2008)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today announced introduction of new IR camera product suite embedded with Advanced Light Rays (ALR) Technology.

eView Technologies' new eIR-4680 camera is weather proof for outdoor & indoor application, employs 1/3" Sony Super CCD and provides Digital Noise Reduction (DNR), OSD Set-up, and Mirror Image delivering high resolution CCTV imagery with 540 TVL. eView Technologies' new eIR-4680 camera is built-in with 68 IR LEDs and illuminate up to 300ft in total darkness, where modes automatically changes via photo sensor.

"In absolute darkness, and with dual power capability of AC and DC to meet all power requirements, the eIR-4680 camera produces one of the sharpest CCTV security images over a long distance of 300 feet," said Ariella Friedman, eView Technologies' spokesperson.

As a Surveillance Security product manufacturer, eView Technologies employs top brand name components from well known manufacturer such as SONY, SHARP, PANASONIC, LG and more. eView Technologies products suite protects against internal fraud and theft, sabotage, and malicious acts.

About eView Technologies

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
