eView Technologies Issues Compatibility Certificate with Chrome, Employing Google's new Web Browser Speed and Performance

eView Manager 3.0 Enables Google's Chrome Support with Remote Video Surveillance Management Software

WASHINGTON, DC (September 5, 2008)... eView Technologies, a Security Automation Management company providing intelligent video surveillance technologies, today issued compatibility certificate with Chrome, supporting Google's new web browser. eView Web Manager 3.0 creates an ideal platform for remote viewing of digital video surveillance security images over the Internet, employing Chromes' speed and performance.

Support for Google's Chrome web browser enables remote access and viewing of digital video surveillance information and images. eView Technologies makes secure access to video surveillance camera infrastructure easier, by enabling centralized web based authenticated user accounts.

"Complementing the popularity of web browser productivity of remote video surveillance management solutions, the eView Manager 3.0 is the first commercially 3rd party application available for Google's Chrome," said Ariella Friedman, eView Technologies' spokesperson.

As a Surveillance Security product manufacturer, eView Technologies employs top brand name components from well known manufacturer such as SONY, SHARP, PANASONIC, LG and more. eView Technologies products suite protects against internal fraud and theft, sabotage, and malicious acts.

About eView Technologies

Confidently helping organizations protect their enterprise, eView Technologies develops, markets, and supports an integrated digital video surveillance security and productivity suite. During the past two decades and prior to founding, eView Technologies' founders and executive management team have earned a global reputation for innovative, standards-based, security solutions and have captured numerous national and international industry awards. As an Independent Software Vendor (ISV), eView Technologies' security suite includes a wide range of products, productivity solutions, cryptographic and e-security applications. eView Technologies markets and sells its solutions worldwide directly and through the channel, and a wide variety partners.
